

## TRENDS IN KENTUCKY MAGNETIC RESONANCE IMAGING PROCEDURES: 1989-1996

**TABLE 3: PERCENT CHANGE IN MRI UNITS & PROCEDURES 1989-1996**

| Year                      | Total Procedures | Annual Percent Change in Total Procedures |
|---------------------------|------------------|---|
| 1989                      | 30,883           | -   |
| 1990                      | 46,847           | 51.7%                                     |
| 1991                      | 54,795           | 17.0%                                     |
| 1992                      | 67,948           | 24.0%                                     |
| 1993                      | 72,802           | 7.1%                                      |
| 1994                      | 75,984           | 4.4%                                      |
| 1995                      | 81,846           | 7.7%                                      |
| 1996                      | 93,844           | 14.7%                                     |
| <b>% Change 1989-1996</b> | <b>204%</b>      |   |
